

Welcome to the Huddersfield and District U3A

Registered Charity No 516502

Welcome to the 2026/27 edition of the annual prospectus of Huddersfield and District U3A. Whether you have been a member before or are new to us, you will find a wide array of classes and activities from which to choose. The Huddersfield & District U3A, though an independent organisation, is part of a worldwide movement providing educational and recreational activities for people in their 'third age', retired or semi-retired. We are, however, prepared to be flexible if you want to join a class but do not quite come into these categories. The active participation of our members will hopefully combat the isolation resulting from our increasingly screen based modern society.

Existing members will notice some changes in terminology this year. "Classes" have become "groups" and "tutors" are now known as "group leaders". "Terms" have become "sessions".

In recent years we have held very well received concerts showcasing the talents of our music groups and choirs and we will be producing another during the Autumn of 2026. Each Spring we also hold a series of one-off talks which prove to be very popular and we will be repeating these next year.

We hope that you will find some activities that interest you and remember that if you have a skill and would like to lead an activity, co-ordinate a group of people with whom you share an interest or volunteer to help with running the organisation we would love to hear from you by email, letter or telephone – contact details over the page.

Membership and Group Enrolment

The Spring Newsletter 2027 will include a membership renewal form for 2027/2028 and a Summer Group 2027 enrolment form. These forms are also available on our website. **Because our financial year goes from 1 April to 31 March, please remember that enrolments for 2027 Summer Groups can only be accepted once you have renewed your membership for 2027/2028.** Membership cards are issued before the prospectus, so if you are a current member you should have an orange card (the colour changes each year).

There is an enrolment form for Autumn and Spring groups 2026/27 at the back of this prospectus. **Enrolment is on a strictly first come first served basis** so it is best to apply for popular groups as soon as possible after the prospectus arrives. Please note that your place in a group will be confirmed by email.

Methods of Payment for both subscriptions and group fees

A **separate** payment must be made for each item, ie one for your subscription and one for each group. This will save a lot of administrative time and effort in the event of groups being full or cancelled.

Payment can be

1. Online by bank transfer. If you are able to pay this way it saves us money, as the bank charges us for cheques paid in.

Payment to: Huddersfield And District U3A

Account number: 34017021.

Each payment should have a distinct reference:

For your subscription, your membership number (which stays the same)

For group enrolment, your membership number followed by group code. The reference should **not** include your surname unless it is different from the name of the account.

2. By cheque /postal order made out to “Huddersfield and District U3A” and posted to the office at the address at the top of this page.

Membership application forms are available from our website or from the office.

Groups and Activities

All groups and activities are held during the daytime and courses, unless otherwise stated, will be for two sessions. The usual fee for a 10 week one session group is £20.00 and for a group running over two sessions is £40. The exceptions are the wood carving group A050 and the guitar group M030 where group fees are £23 per session and the mixed choir M022 where the fee is £25 per session because of higher costs or more sessions.

All group fees should be sent to the office not given to group leaders.

HISTORY AND PHILOSOPHY

HP15 Monarchs and Royal Families of the British Isles **Jill Mitchell**
Almondbury Church Hall **Spring Session Only** **Monday 2.00 - 4.00**

These sessions will look at monarchs and royal families of the British Isles from Boudicca, through the Medieval Period and ending with the Tudors. The course will cover royal families of Scotland and Wales as well as England plus individuals from abroad who married into these royal families. We will be looking at both royal women and royal men. Handouts and possibly some PowerPoints will be included.
Spring session only

HP16 Crime & Punishment (Autumn)/Criminal Ancestors (Spring) **David Taylor**
Huddersfield Mission **Monday 2.00 - 4.00**
Autumn session

From 'Bloody Code' to Borstal: crime and punishment, c.1780-1914

These sessions will look at key elements in the evolution of the modern criminal justice system. As well as looking at changing explanations of criminality and the development of the criminal trial, we will explore changes in punishment, notably the emergence of the prison, rather than the scaffold, as the main site of punishment.

Spring session

Criminal Ancestors

We will focus on (some of) the men, women and children who appeared before the nineteenth-century courts and often found themselves in prison and other related institutions. As well as looking at 'serious' crime (i.e. murder and robbery) we will look at the more mundane indictable and summary offences. In particular, attention will be given to the way in which the law was used to combat deviant sexual behaviour, illegal substances and even leisure activities.

The two 10 week sessions are related, but both are self-standing.

HP17 Transport around Huddersfield **John May**
Jubilee Centre. **Autumn Session Only** **Friday 10.00 - 12.00**

Huddersfield has a rich transport heritage. Packhorses, stagecoaches, horse-drawn carts, wagonettes, canals, railways, hansom cabs, steam and electric trams, motorized lorries, and buses. In these sessions we'll look at many aspects of transport in the town and surrounding area, including the influences of independent operators, local politics, legislation, and operator groupings. We'll also have a look at some of the social history associated with transport operations and at the rise and fall of some local companies – many will remember, for instance, County Motors or Hansons, but have you heard of Blue & White? We'll find out how the trams continued when so many of the men were in the Great War; how uniforms developed; and why you might have travelled on a knife-board.

Autumn session only

HP21 Tracing Medieval Landscapes**Geoffrey Higgs****Stocks Moor Village Hall****Autumn Session Only****Tuesday 1.00 - 3.00**

This course will trace historic features in the landscape as it appears today. It is based on the previous 'Interpreting the landscape' course and will cover such topics as ancient woodland and their management, historic field systems, early industries and the role of the church and landed elites in shaping the landscape. We will meet fortnightly in the Autumn session, starting from Tuesday 22nd September when all further dates will be advised. Please note there is a minimum group size of 8 for this course, so it may not run if insufficient people sign up.

Fortnightly over the Autumn session only**HP22 Practical Philosophy****Graham Gibbs****Jubilee Centre****Tuesday 1.30 - 3.30**

We welcome anyone who is interested in the ideas and debates in philosophy whether they have previous experience in the subject or none at all. Our method is relaxed and, at times, humorous. In the last couple of years, we have looked at a diverse range of subjects including perseverance, artificial intelligence, utilitarianism, the ethics of climate change, self-deception, honesty, beauty and blame. After a brief introduction, usually based on a short, circulated document which looks at relevant concepts and philosophers, we spend most of each session discussing the ideas and arguments. However, no one is under any pressure to speak to the group and everyone is recognised as equal because we have no prima donnas, only learners. In some weeks, sessions are prepared and led by group members.

HP23 20th Century Philosophy**Kenneth Beachill****Huddersfield Mission****Wednesday 10:30 - 12:30**

The course will explore the major contributors to 20th century philosophy, including G Ryle, Wittgenstein and beyond. The major emphasis will be the development of language.

SP10 Mindful Movement for 55+

Lorraine Watts

MOVE@HD1

Autumn Session Only

Friday 11.00 - 12.30

Our emphasis will be on promoting relaxation, flexibility, and well-being. Through a series of gentle movements, warmups and stretches your body will be prepared to be guided into postures accessible to you at your own pace ability and comfort level. We will not be performing too many postures in each group and will include a variety of flowing meditative type movements. These include COEX as developed by psychologist Tony Crisp, to relieve patients of muscle tension and include six element Tai Chi, both of which will make for a more relaxed experience. Each group finishes with a 15 minute guided relaxation. Each person is individual, and certain postures will be achieved more easily than others and all postures can be performed to a lesser or greater degree or an alternate shown. Like all exercise repetition and practice at home is the key. Also, keep to your own pace. Props such as yoga blocks and woollen blankets are used to enhance your practice and make you feel at greater ease in the posture. For those who find sitting on the floor challenging, we have chairs available for seated postures and meditation. With over 35 years of yoga experience, I am here to assist you in finding the right posture for your body. If something feels uncomfortable, I will always have an alternative for you. Expect to leave feeling revitalised, relaxed and more connected to your body, with the confidence to move with ease. You are welcome to come for a taster session before committing.

Special requirements: Yoga mat, yoga block and a thick blanket

SCIENCE AND TECHNOLOGY

ST02 Science - Let There be Photons

Peter Alpin

Jubilee Centre

Spring Session Only

Thursday 1:30 - 3:30

No prior knowledge of science required just an enquiring mind. We will look at all sorts of science not just physics. Concepts will be explained as we go along. Join to find out. As usual maths will be kept to a minimum. Suggested topics are always welcome provided they are science related. If you have an interest in science I hope you will find it interesting and read further on the topics we cover. Nobel prize winners and FRS members will be asked to take some of the talks but others with an inquisitive mind will, I hope, find it interesting if not fascinating.

Spring session only.

ST03 A Gentle Look at Mathematical Proof

Michael Smith

Jubilee Centre

Spring Session Only

Friday 12.45 - 2.45

Proof is central to the mathematical method. A result proved is a result for ever! In this course we shall use a wide range of methods to prove many interesting, useful and beautiful results concerning numbers and shapes. Examples will be taken from the entire historical development of the subject from the Greeks to the present day.

Basic mathematical knowledge plus a tiny bit of algebra will be assumed but the pace will be leisurely, with lots of time for reflection, discussion and digression.

Spring session only

ST04 Information Technology

Mark Robinson

Jubilee Centre

Autumn Session Only

Thursday 1.30 - 3.30

In this group we explore the exciting world of IT that impacts all our daily lives. Expect presentations, lively discussion and some technology demonstrations. Last year, topics included Programming, Social Media, Robotics and Artificial Intelligence. We will no doubt return to some of those again, as the IT world is constantly changing, but there will be new subjects too. We'll discover more about the people who have shaped IT, some of the products being used today and dig a little deeper behind the IT related news-headlines. No technical knowledge is necessary, just a desire to learn more and join in the discussion. Whether you attended before or will be new this time, you are most welcome.

Autumn session only

VARIED INTERESTS

V010 Photography

Mark Robinson

Friends Meeting House

Thursday 10.15 - 12.15

This is the group for you if you have an interest in photography. You don't have to be an expert, or have an expensive camera, just a desire to improve your skills and create better images. We cover many genres of photography including landscapes, portrait, wildlife and more. Long-standing members are very willing to help newcomers with less experience. There will be a different topic each week. Sometimes a practical exercise on the day, sometimes some 'homework' to take photographs on a particular theme! We learn by sharing our own photographs (usually projected on screen), which often leads to some lively discussion. If you've not been before, come along to our friendly group and try a new hobby.

V015 Tarot Card Reading - A New Hobby?

Chris Stephen

The Newsome Centre

Autumn Session Only

Monday 10.00 - 12.00

****NEW GROUP**** This short course offers a relaxed and engaging introduction to Tarot card reading as a hobby. Designed for complete beginners as well as those with some prior experience, the course explores the history and structure of the Tarot, including the Major and Minor Arcana, symbolism, and card meanings. Participants will learn how to interpret individual cards, develop intuition, and practise a variety of simple spreads for personal insight and reflection. Emphasis is placed on Tarot as a tool for self-discovery, creativity, and thoughtful conversation rather than prediction. Each session includes guided learning, group discussion and practical reading exercises in a friendly, fun and supportive environment. By the end of the session, participants will feel confident conducting basic readings for themselves and others. No prior knowledge is required — just curiosity and an open mind.

No group fee is payable for these activities but current 2026/27 membership is required

W010 Monday Walks

Nigel Peters and Kim Stacey

Walking/Cycling meeting point

Monday 10.00 - 3.30

We walk every Monday throughout the year. We walk 10-12 miles over varied terrain in equally varied weather conditions. Some walks are local, some further afield and we 'car share' wherever possible to get to the starting point. Group members take turns to lead, but we don't expect new members to lead straight away and help is always available for planning and checking out walks. We welcome new members.

Good clothing and footwear are essential.

For further information about the group and to enquire about joining, please contact Nigel Peters on 07707 009963 or Kim Stacey on 07971 245998.

Circular walks take place on 1st and 3rd Tuesdays in the month, mostly in the Holme and Colne Valleys and nearby areas. We use cars to get to the start and all walks are cross country, usually 5-6 miles in length. We are a small group who offer a warm welcome to new members capable of walking the distance and who might eventually be willing to lead a walk (there will never be any obligation).

We take a packed lunch and occasionally visit a cafe afterwards.

Please contact Richard Huddleston on 07884976274

email richardehuddleston@gmail.com

They are approximately 8-10 miles in length, starting within a reasonable radius of Huddersfield centre. A packed lunch, good clothing and rugged footwear are essential. You'll need your own transport as start locations are often inaccessible by public transport. Car sharing is encouraged where appropriate. We are a friendly mixed group and members take turns to lead the walks. You won't be expected to lead straightaway, but regular walkers should expect to offer at least one walk per year. This is a popular group, but new members are always welcome.

Walking/Cycling meeting point

These walks take place on alternate Fridays and are suitable for people who would like shorter (no more than 3-4 miles) and hopefully, flatter walks (not always possible!) At the end of the walk we enjoy a pub lunch and a natter!

Alternate Fridays of every month

W031 Recovery Walking Group

Joan Shaw

Walking/Cycling meeting point

Friday -

Have you recently had joint replacement surgery or another medical condition affecting your mobility? Are you an inexperienced walker, but would like to get into this health and fitness enhancing activity in good company? Or are you finding the distance and pace of your present walking group a bit too challenging? We might be just what you are looking for.

We are a small but growing group of walkers with various mobility needs. One of our main characteristics is our flexibility: as to length of walk, meeting point, and whether we can walk together as one group, or split into two for that week. The length of walk varies from 1 to 3 or 4 miles, depending on the needs of the group. We walk on the first and third Friday of the month, and where the calendar permits, on the fifth. The usual meeting point for new members is Greenhead Park, at the front entrance to the Conservatory Cafe, until we can discuss with them their individual needs. Established members will also join us in the park, if they want a

shorter walk for a change. Members welcome the opportunity to include a good cafe for refreshment at the end of a walk, and we organise opportunities for the full group to meet together from time to time.

Established members doing a longer walk will meet at a point appropriate for that walk. We use public transport, and full details of the meeting point are given.

The group is very sociable and supportive, particularly to those with recent mobility issues. As individual mobility improves, members have the opportunity to join one of the U3A's regular walking groups, or to continue walking with us and helping this continually evolving group to meet everyone's needs.

For further information or to signal your intention to join, contact Joan Shaw on 07748 519726.

First, third and, when it occurs, the fifth Friday of every month

W033 Friday 10 Mile Walks

Alan Taylor

Walking/Cycling meeting point

Friday -

We walk every Friday for 8-12 miles between 10.00 am and 4.00 pm. We cover varied terrain, including moorland, in all types of weather. We mostly walk within the Kirklees and Calderdale districts, but occasionally we go further afield and car share whenever it is possible.

We are an informal, relaxed group and we do not expect that members will attend all the walks. Dogs are welcome as long as they are kept under control and put on a lead amongst livestock. We take turns to lead: new members are not expected to lead straightaway and help is always available to plan walks.

We take packed lunches, and occasionally go to a cafe at the end of the walk.

Good clothing and footwear are essential, also a realistic level of fitness to complete walks of this length.

If you are interested in joining, and would like a chat about the group, please contact Alan Taylor on 07544 594136.

W050 Sociable Cycling

John Sutcliffe and Joan Burnip

Walking/Cycling meeting point

Wednesday -

We are a friendly group who enjoy cycling and the opportunity to visit different places and see different things. We ride on Wednesdays (weather permitting). The majority of our rides are car assisted. We use cars to get to the starting place, which means that we can explore a larger area. We use quiet roads, greenways and occasional tracks. Main roads and steep hills are avoided where possible but the advent of electric bikes has made hills less of an issue. Electric bikes still require effort (they don't move unless you pedal), but they are much more fun. We have a lunch stop at a cafe or similar establishment with maybe a coffee stop or an ice cream stop on the way home. Rides are usually about 50k (30 miles). We have also had some lovely residential weekends.

You will need a bike suitable for road, canal towpaths etc. a spare inner tube and pump, yes we do get punctures.

For further information, please contact John Sutcliffe or Joan Burnip 07979 691232.

Through a series of gentle movements, warmups and stretches your body will be prepared to be guided into postures accessible to you at your own pace ability and comfort level. We will not be performing too many postures in each group and will include a variety of flowing meditative type movements. These include COEX as developed by psychologist Tony Crisp, to relieve patients of muscle tension and include six element Tai Chi, both of which will make for a more relaxed experience. Each group finishes with a 15 minute guided relaxation. Each person is individual, and certain postures will be achieved more easily than others and all postures can be performed to a lesser or greater degree or an alternate shown. Like all exercise repetition and practice at home is the key. Also, keep to your own pace. Props such as yoga blocks and woollen blankets are used to enhance your practice and make you feel at greater ease in the posture. For those who find sitting on the floor challenging, we have chairs available for seated postures and meditation. With over 35 years of yoga experience, I am here to assist you in finding the right posture for your body. If something feels uncomfortable, I will always have an alternative for you. Expect to leave feeling revitalised, relaxed and more connected to your body, with the confidence to move with ease. You are welcome to come for a taster session before committing.

Special requirements: Yoga mat, yoga block and a thick blanket

U3A Transport Scheme for Disabled Members

Assistance with payment for transport to U3A groups can be arranged for those persons who are unable to use public transport or who have great difficulty due to a disability. After being accepted into the Scheme, the member makes his/her own arrangements to hire a taxi. For each taxi journey taken, a receipt must be obtained. The receipts should be sent to the office at the end of each session. The member will then be reimbursed by the U3A with 50% of the taxi costs. Applicants wishing to join the Scheme should contact the office.

Please note that the **Metro Access Bus** is also available to disabled people free of charge. Details of this scheme can be obtained from:

AccessBus

40-50 Wellington Street

Leeds LS1 2DE Tel: 0113 348 1903 Email: Accessbus@westyorks-ca.gov.uk

Insurance

All members are covered by our Third Party Public Liability Policy and there is no distinction with regard to age. We **DO NOT** have a Policy which gives our members personal accident cover as this would have to include all members and would be prohibitively expensive. All members are requested to provide their own personal accident cover if they think it necessary.

Every person taking part in U3A activities has a duty to keep themselves safe by co-operating with safety measures, not putting themselves or others in danger and ensuring that appropriate clothes are worn depending on the activity undertaken.
